

sustainIQ

VERSION 1

Using Data to Improve Staff Wellbeing,
and Engagement with Local Communities

BACKGROUND

Version 1 is a global leader in AI and digital transformation. For nearly three decades, they have gone beyond customers expectations through cutting-edge technology and expert teams.

They have deep expertise in cloud, data and AI, application modernisation, and service delivery management. They have redefined businesses globally, helping shape the future of large public sector organisations and major global, private brands.

Version 1 is committed to being a responsible organisation, striving for a lasting, positive impact on both people and the planet. The company's ESG agenda is structured around strategic pillars, each aligned with the United Nations Sustainable Development Goals

WHY SUSTAINIQ?

Lorna McAdoo, Group Director ESG at Version 1 said "We had implemented a strategic approach towards ESG, focusing on areas such as environmental sustainability, diversity & inclusion, education & employability, community engagement, and social impact".

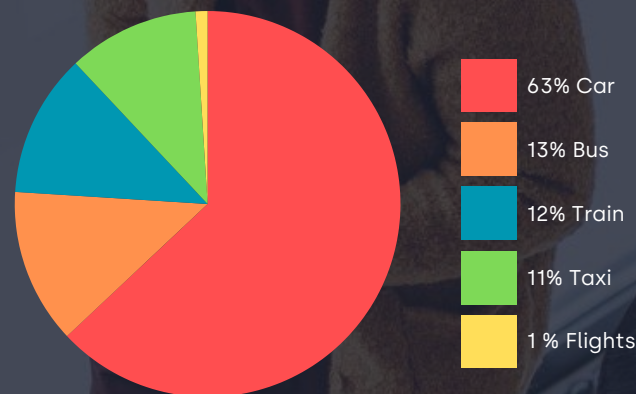

"It became apparent that we needed a solution that would enable us to more effectively measure and monitor these initiatives on a continuous basis. We needed something that would allow us to quickly and easily evidence our performance to key stakeholders".

"SustainIQ was exactly what we were looking for. It allowed us to centralise our reporting within a single environment, and to create comprehensive reports at the click of a button".

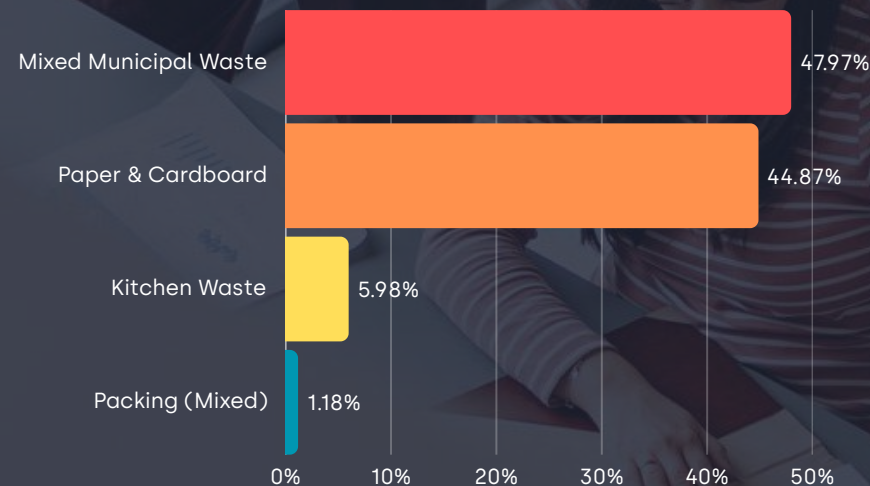

GHG EMISSIONS

SustainIQ provides Version 1 with detailed analysis of transport emissions, enabling the business to investigate alternative options and better support carbon reduction.

EMISSIONS BY TRANSPORT TYPE

MAIN WASTE MATERIALS

HEALTH & WELLBEING

Engagements

“ At Version 1, we're committed to improving the health and wellbeing of our staff, and to delivering positive outcomes for the environment, and the communities where we operate.

Using SustainIQ, we've been able to more effectively measure and monitor our social value initiatives, enabling us to deliver consistent improvements over time. SustainIQ has become our single source of truth for ESG. ”

OUR SOLUTION

Meet SustainIQ

COMPLETE ESG REPORTING

SustainIQ provides users with one integrated reporting dashboard for all aspects of ESG. Report on areas such as Waste Management, Scope 1, 2 & 3 GHG Emissions, Social Value, Biodiversity, Workplace Wellbeing, Diversity & so much more.

SustainIQ helps organisations centralise their ESG reporting in one place. With compliance requirements mounting and commercial value to be gained, our users experience improved data-flows and quality, but also win more work and enjoy significantly improved business growth as a result.
